

NO

BODY

—A / V PERFORMANCE

In NOBODY, an audiovisual performance by Nohista, dance meets visual art meets a concert.

Somewhere in a empty universe, an entity redefines its spaces and its boundaries in a way that is limited only by its imagination.

Pitting visual abstraction against the motion of an unstable mechanical body, Nohista creates - live - a visual and musical dance

He invites the audience to head off on their own trip through this immersive experience.

NOBODY: watch, listen, feel.
